Common workforce challenges

Sfidat kryesore te menaxhimit te stafit

Manual attendance gaps

Attendance data is often inconsistent and hard to verify.

Te dhenat e prezences shpesh jane te pasakta dhe veshtire per verifikim.

Shift planning complexity

Managers need clear coverage by department, day and employee.

Menaxheret kane nevoje per mbulim te qarte sipas departamentit, dites dhe punonjesit.

Leave conflicts

Absences must be visible before they affect operations.

Lejet duhet te jene te dukshme para se te ndikojne operacionet.

Payroll preparation

Overtime and attendance data should be export-ready.

Orari shtese dhe prezenca duhet te jene gati per eksport drejt pagave.

Zgjerohet ne departamente, ekipe dhe struktura kompanie.

Live manager dashboard

Panel menaxhimi ne kohe reale

Overview of team planning, leave requests, coverage, biometric summary and quick actions.

Pamje e permblodhur per planifikimin, lejet, mbulimin, prezencen biometrike dhe veprimet kryesore.

Biometric device integration

Integrim me pajisje biometrike

Track device status, employee scan activity and latest biometric events while keeping manual attendance available.

Monitoron statusin e pajisjes, skanimet e punonjesve dhe eventet e fundit pa hequr prezencen manuale.

The screenshot displays the 'Biometric Attendance' section within the ReaRonix Workforce Platform. The interface is divided into a left sidebar with navigation options and a main content area. The sidebar includes 'PLANNING', 'TEAM', 'OPERATIONS' (selected), 'REPORTS & SETUP', and 'DISPUTES'. Under 'OPERATIONS', there are links for 'My Attendance', 'Team Timesheet', 'Leave Management', 'Shift Swaps', and 'Biometric Attendance' (highlighted). The main content area shows data for 'F18 ZTECO DEVICE'. It includes a summary of today's attendance: 0 present, 0 in, 0 out, and a last scan by Edion Isufaj at 20:20:42. Below this, it shows 1 registered employee linked to the device and the device status as 'ONLINE'. The 'Latest Biometric Activity' section displays a table of recent scans.
